

## **B & G INFRASTRUCTURE COMPANY PRIVATE LIMITED PAVES THE WAY FOR CLEAN ENVIRONMENT in Mahalingapuram, Nungambakkam, Chennai.**

B&G Infrastructure Company Private Limited (BGI) in the business of power generation have taken a noble initiative to keep their surroundings clean and proved that they would go that extra mile to keep their environment clean.

As is common in most places a secluded place is conveniently used as a dumping yard for garbage. The transformer situated near the office was being used as a dumping yard and BGI took the initiative to keep their environment clean and as community service built the structure around the transformer for safety and cleanliness of its neighbourhood.

BGI group of companies, have their 8.81 MW Gas plant and a 1 MW Solar plant in Komal village away Nagapattinam. They are spreading their wings across India with other projects like Hydro, Gas and Solar in Karnataka and Madhya Pradesh.

The facility put up by BGI around the 11 KVATransformer

located at Sir Madhavan Nair Road, Mahalingapuram was inaugurated by TNEB officials Mr. R. Karthikeyan, Executive Engineer, Mr. K. Veeramuthu, Asst. Executive Engineer and Chairman of BGI Dr. V. Bakthavatsalam, who was the very first Managing Director of Indian Renewable Energy Development Agency Ltd. Talking on the initiative Mr. B. V. Gautam, Managing Director of BGI said, "any initiative taken by BGI will be sustainable in nature. Our objective is to give back to the society with similar CSR initiatives in the form of infrastructure development in

society or training individuals to help them earn a living."

The local community was also helpful & supportive towards the initiative and participated on the occasion.
